

On January 17, 2017 an extortionist-racketeer arsonist Republican city councilman of Centennial Colorado made the following threats that have been carried out since May 2020.

1. To manipulate us into living only where he allowed us to live so that he could carry out an insurance fraud conspiracy on that property, he knew and described the layout and location of the property he was targeting before the foundation was even laid.
2. To obtain our financial information and signatures through the application process for that rental property.
3. To use that financial information to rob our bank account, over \$7000 was reported stolen from our CHASE bank account in September of 2021.
4. To forge our names on a lease agreement to the apartments that he would manipulate us into moving into for the purpose of insurance fraud.
5. To cause a fire in any property we buy or rent or were likely to buy or rent, at least 3 such fires have happened within 1 mile of 5591 S. Nevada St. Littleton Colorado 80120.
6. The apartment he would manipulate us into would have a view of the Rocky Mountains as a 'benefit' of his conspiracies, exactly as there is from the windows of apartment 307 5591 S. Uinta St Littleton CO 80120.
7. To place a lease agreement in our mailbox illegally without postage as was discovered 11/05/2020. A second copy of this lease agreement was taped to our apartment door. The property manager Hunter Smith 'went on vacation' at this time, exactly as the extortionist had threatened she would on 07/17/2017. This was said by the extortionist to prevent her being questioned by law enforcement in connection with the placing the lease agreement in the mailbox illegally without postage.
8. The property he would manipulate us into would be owned by persons registering the business in Montana exactly as Littleton Crossing is: Denise Posey Principal 283 W Front St Ste 1 Missoula, MT 59802-4328 406-541-0999.
9. To force us to sue for constructive eviction through nuisance noise, odor and harassment, which have been recorded, posted online, and complained about multiple times. Exactly as the extortionist threatened the property manager refused to do anything about these issues.
10. In order to sue for constructive eviction the lease agreement would require the civil hearings to take place in Wyoming exactly as was written in the lease agreement taped to our apartment door and placed illegally without postage in our mailbox.
11. That we would be required to give his accomplices 90 days notice before vacating the apartment that he manipulated us into renting so that he could cause a fire at our destination and manipulate us into rent at property under his control for the purpose of insurance fraud. Property manager of Littleton Crossing apartment, Susan Hunt has repeatedly reiterated this demand.

12. To cause a 'bass' noise to annoy me, as occurred from June 2020 through October 2022. Resuming March 20, 2023 and continuing through May 2023.
13. To cause a leak in the apartment as occurred in 2021 through 2023. Maintenance man "Freddy" daubed some kind of material on the leak but did not repair the leak. The extortionist was very intent on getting his man into that bathroom for this leak, most likely to apply an asbestos containing material in the manner "Freddy" was filmed doing. While failing to repair the leak "Freddy" was filmed brandishing a utility knife at Amy Griffin in some sadistic attempt to intimidate her.
14. If we did not let his co-conspirator into the apartment he would cause a marijuana odor in order to create complaints against us and force an inspection by his people, exactly as occurred when maintenance man "Sam" started working and living in the building and then this odor became a constant nuisance when maintenance man "Freddy" started working and living at the property.
15. Specifically the threat was to cause a marijuana odor from the maintenance man's apartment below ours forcing me to report it, as occurred over 150 times.
16. The property manager, a woman, would not do anything about the marijuana odor or the noise complaints, exactly as both Hunter Smith and Sarah Hunt had done.
17. The property manager would indicate she worked for the extortionist racketeer by saying "only you" or "You're the only one to complain" as Susan Hunt has done.
18. The marijuana odor would precede arson of the building, as yet to occur.
19. To contaminate the space between the laminate floor panels in our apartment with asbestos, there is a suspect material between the laminate floor panels in apartment 307.
20. To dump a pile of material behind our refrigerator and claim it is asbestos, there has been such a pile of material behind our refrigerator since May 2020.
21. To open the door, reach inside and scratch the wall surface by the light switch, there is such a scratch in apartment 307 directly left of the light switch next to the apartment door.
22. To damage the wall surface so it has to be repainted, but first tested, at which time asbestos contamination will be claimed to be found, there is such damage in the bedroom of apartment 307.
23. To cause to be heard a power sanding tool in or near our apartment as occurred and recorded in 2020, this was to be used for the purpose of insurance fraud to falsely claiming that I had sanded the asbestos material off the floor and caused it to be trafficked through the building, into the alleyway and parking garage so that the racketeer could profit from the mitigation, disposal renovations and sale of the property into his control.
24. To pull the fire alarm in the building and claim a child did it, exactly as occurred in 2020,

this is a felony offense.

25. To distribute black plastic tubing that contains asbestos on the property, exactly as occurred in 2020 directly after the fire alarm was pulled.

26. His co-conspirators would attempt to gain entry for a leak in the apartment, as occurred in 2021 through 2022.

27. If we did not let his co-conspirators into the apartment then he would damage pipes in the garage, so that the insulation would have to be damaged to facilitate repairs and he would then to claim 'likely disturbed asbestos', this damage to the pipes, leak in the garage and damaged insulation occurred after being denied entry into our apartment 2021 & again in March 2023.

28. To gain entry for HVAC maintenance as was attempted without cause in 2020 and then for regular & announced maintenance between 2020 and 2023.

29. That smoke detectors would not work when the arson took place, property manager Susan Hunt has failed to have the smoke alarm batteries changed for over 730 days.

30. To place other people's mail in our mailbox which has occurred over 30 times since May 2020.

31. To flood the underground garage with sewage as occurred in 2021.

32. To soil the carpets in order to claim that asbestos was trafficked out of the building as occurred in 2021 when sewage flooded the garage, and additionally in 2021 when blood was found all along the carpets of the third floor hallway.

33. The doorstop on the stairwell would be broken in order to create a city code violation, the doorstop on the 3rd floor had been broken since May 2020, finally fixed sometime in 2023, after I had uploaded pictures of it with a description of this threat to to social media platforms.

34. To place a solid air freshener in our property/apartment and if we threw it away he would crush it on the ground and claim it was asbestos, a solid air freshner was in our apartment when we moved in.

35. To keep us under surveillance by placing cameras and microphones in the apartment.

36. To use those recordings in order to send videos of me masturbating to children.

37. His co-conspirators would indicate that we were under surveillance by coughing, a man has coughed at or near our door almost every single day since June 2020. 357 incidents of this have been recorded. On 5/15/2023 the male suspect responsible for this activity was identified as "Mark" who maintenance man "Freddy" had called on to be a witness while he harassed me in the hallway on February 21, 2023. This "Mark" was the same man who followed me to the third floor north patio balcony on three occasions in May 2023.

38. To indicate we were under surveillance by entering places where I was online and mentioning what I ate or talked about in the apartment, as has occurred multiple times.

39. To place a stolen shopping cart on the property and then claim that we were responsible for it, a stolen shopping cart has been on the property since February 2021 after Susan Hunt became property manager, she has been notified this is stolen property but maintains it on the premises.

40. To fabricate harassment complaints against us by forcing us to repeatedly complain about the noise and marijuana smoke, and/or other nuisances.

41. To have someone bang on our door and scream at us as has happened twice with the same latino 'witness neighbor' remaining directly outside our door for several minutes after the 60 or 65 year old man responsible for the nuisance harassment BOTH times, the same exact latino male who has been seen using the stolen shopping cart on multiple occasions beginning in February 2021.

42. There would be a crack in the caulking between the sink/counter top and the wall in the kitchen.

43. To caulk said crack at the kitchen counter with asbestos containing material that would be identified by his inspector by a "lump" in the caulk. Maintenance man "Chris" was filmed making this 'repair' in 2020, with a discolored material and he left a telltale "lump" in it.

44. To dump chemicals down our drain, as occurred by maintenance man "Chris" in 2020.

45. To put WD-40 on our door hinges in order to collect dirt in the hinges, as occurred by maintenance man "Chris" in 2020.

46. There would be a substance on the door in the bathroom that he would claim was asbestos, exactly as exists in apartment 307. It seemed his whole game with the leak in the bathroom was to get his accomplice to claim he saw this material, was exposed to this material, and then defraud the asbestos trust fund and property insurance.

47. To place blood on surfaces to attract 'his' inspectors attention, exactly as occurred in 2021 after "Sam" started working on the property.

48. To incite me to complain to the property manager about loud conversations outside our apartment, exactly as occurred in 2021.

49. To cause an odor in the property in order to fabricate a code violation, as occurs every three months when the laundry closet drain pipe dries out.
50. To cause persons to be witness to this odor, specifically the Census taker, who arrived 3 times precisely after this odor developed.
51. There would be bacteria growing in the toilets, a red bacteria, *Serratia marcescens*, has been growing in the toilets of apartment 307 since 2020.
52. To have his coconspirators enter an online game I play and say they want to burn down a large building and/or fly airplanes into the IRS HQ, as occurred in 2022.
53. To intercept our internet/telephone communications and prevent our reporting to law enforcement.
54. His people would follow my accounts online, as occurred on multiple instances, notably by a woman who then followed me down the hallway of 5591 S. Nevada St, Littleton Colorado hours after following my online profile. He threatened his people would 'cough' to announce that they had me under surveillance me. Before following me down the hallway this woman stood outside the garbage chute room door coughing.
55. Noise complaints would be made against us to build an eviction case, the complaints would be "Sounds like someone running" and/or "Moving furniture." Susan Hunt claimed that these exact complaints were made against us August and November 2022, while the maintenance man was the source of the noise and the complaints could only be coming from the maintenance man's apartment. She did not inform us of any complaints until we had informed her that the psychotic older man had come banging on our door claiming to be the maintenance man and demanding to be let inside.
56. A chemical would be applied to our door in order to create a complaint/witness statement of 'odor' present at our apartment. After making complaints against the maintenance man "Freddy" for marijuana odor a metal object was thrown at our door and an acrid irritating odor has been present at the threshold of apartment 307 ever since.
57. Someone would be seen smoking near our apartment in order to claim my smoking caused the arson in the building, ceramic flower pots were regularly left containing multiple burned cigarettes on the third floor patio directly next to our apartment, every time I threw one into the trash a bigger one would replace it, the tenant next door to the north was caught smoking on her balcony next to your bedroom window a number of times.
58. As a 'benefit to the conspiracy' the extortionist threatened to influence President Donald Trump to legalize hemp farming in the United States, signed into law 2018.
59. As a 'benefit to the conspiracy' the extortionist threatened to legalize/decriminalize growing and possession of psilocybin mushrooms in Colorado, voted into law in 2022.

60. The extortionist threatened there would be an electronic lock with camera to warn him if police were called to question the maintenance man, such a lock was present on Apartment 207 in 2020

61. Immediately after the electronic lock was photographed it was removed, the door was replaced early in 2021, and a camera was installed in the lobby of 5591 S. Nevada St. for the same purpose.

62. The extortionist threatened Amy Griffin would only be allowed to work where the extortionist wanted her to work, he would sabotage any other opportunities she might have and any other employment she took

63. The extortionist threatened Amy Griffin would be implicated in embezzlement because she would be the one to hire his embezzlers. She was 'given' management positions where she hired people and those people requested access to corporate credit cards.

64. The Extortionist racketeer threatened to go after anyone I help or helped and anyone who helps and/or helped me.

65. The Extortionist threatened to plant other people's mail or mail receipts on our property to frame me for mail theft. A mail receipt to a federal prisoner in New Jersey was found planted directly under my chair on March 4, 2023 soon after this was discovered my wife's checkbook was found to have been stolen from her purse.

66. The extortionist threatened to tie me to asbestos contamination of the property via a contaminated broom that would be found in a closet that he would claim was under my control. The maintenance man "Freddy" was seen throwing a broken broom against the closet across the hall from apartment 307, when questioned about it he became completely belligerent and abusive, in his rage he admitted to over 150 overt acts in accordance with conspiracy by claiming I 'turned him in' for the marijuana odor that was threatened by the extortionist to precede arson.

67. The extortionist threatened to annoy me and attempt to incite panic attacks with wood smoke by supplying a wood burning appliance to a neighbor and to reward that person for harassing us by giving them free fiber internet. The extortionist said spray painted concrete would indicate the fiber was being installed. The neighbors in apartment 107 were found to be burning wood in a small firepit on their patio directly below my bedroom windows and bright orange spray paint markings were witnessed on the concrete there.

68. The extortionist threatened to bury a WIFI router in the walls in order to carry the signal from his surveillance devices, he threatened looking for this device by opening up the dry wall would be used to claim 'likely disturbed asbestos' for the purpose of insurance fraud.

69. The extortionist threatened that looking for the surveillance devices in the electrical outlets would be used to claim the cause of the fires he threatened to set.

70. The extortionist threatened once asbestos was mentioned the police would refuse to enter the premises and investigate.
71. The extortionist threatened that once asbestos was discovered the property would be evacuated and evidence would be confiscated, fabricated and/or tampered with.
72. To pay the company whose software I use to end their open source initiative. Livecode ended their open source initiative in September 2021.
73. To buy only one share of that company in order to know about their finances. As of September 2021 there is only one shareholder that owns only one share of the company.
74. To cause us to cancel our credit cards /close our bank accounts so that we would be late making rent/mortgage payments. On March 3, 2023 the checkbook used to pay rent was discovered missing and the account used to pay bills needed to be closed.
75. The extortionist described the sprayer hose based kitchen faucet exactly as installed in apartment 307 5591 S. Nevada St. and then threatened that his accomplices would cut the hose while playing the role of interested buyer/renters. (Yet to be carried out.)
76. To cause street construction to block the roads to prevent moving any moving company other than his to reach us, causing us to abandon our property so that his accomplices could steal and tamper with evidence. Road construction was photographed on Main Street Littleton May 09, 2023.
77. The extortionist had threatened that he could call for road signs to be placed to block roads and carried out this overt act of conspiracy exactly as he threatened to precisely after I questioned his accomplices at American Remodeling at 5241 S Santa Fe Dr, Littleton, CO 80120 in June of 2019. A pick up truck full of road signs had been parked on W Berry Ave near the corner of S. Nevada St for at least two years and construction signs have recently been placed at the corner of W Berry Ave and S Prince St. The extortionist said that the police would have to call his people in order for the signs to be moved for their access and he would thereby be informed that I had contacted police about his conspiracies.
78. The Extortionist racketeer threatened to DESTROY me if I told anyone about any of his threats.
