

# MARIJUANA ODOR THREAT

On January 17, 2017 I was extorted for two and half hours by a Republican city councilman of Centennial Colorado.

Threats made by this man include:

1. Marijuana odor would be produced in the building that he would manipulate us to live in.
2. The odor would come from the maintenance man's apartment below ours
3. The property manager (a woman) would do nothing about the odor.
4. The odor would precede arson of the building.
5. He would cause a fire in any property we buy or rent, or were 'likely' to buy or rent.
6. The smoke detectors would not work when the arson occurred.
7. That his 'people' in the city would come to inspect the building if the odor was reported to authorities.
8. The fire and/or inspection would result in asbestos placed by his people to be found & the property declared uninhabitable.
9. When the building was evacuated his people would seize, fabricate, and/or tamper with evidence to point guilt at us.
10. He would place something on my door that would cause an odor to be reported
11. He would burn our carpet to create the appearance that we were smoking in the apartment
12. Force us to sue for 'constructive eviction' where the property manager would perjure herself in court saying that I was the only one to complain about the odor
13. That he would get us evicted by falsely accusing us of noise "that sounds like running" or "moving furniture"
14. He would "destroy" me if I ever told anyone.

---

As of February 21, 2023:

1. Three buildings we were likely to rent apartments in within a half mile of 5591 S. Nevad St. had fires in the exact manner threatened.
2. Over 150 incidences of marijuana odor from the maintenance man's apartment.
3. The property manager (a woman) has done nothing but gaslight us about multiple complaints.
4. The batteries in the smoke detectors haven't been changed in over 580 days.
5. "Random apartments" in the building were inspected on February 16, 2023.
6. After reporting marijuana odor from the maintenance man's apartment a metal object was thrown at our door, since then there has been an acrid ashtray like odor at the entrance of our apartment for months
8. An eight inch burn in the bedroom carpet was found on February 16, 2023
9. Property manager sent me an email claiming that I was 'the only one' ...to complain about the odor.
10. Property manager claimed there were noise complaints against us stating 'sounds like running' or 'moving furniture.' Complaints which could only come from the guy in this video or an accomplice of his.
11. Specific asbestos contamination conditions and city code violations exist in the building exactly as threatened.
12. Specific damage has been done to the building such as insulation, water damage and sewage flooding, exactly as threatened by the insurance fraud racketeer
13. Caulk along the kitchen counter/sink cracked and was badly repaired by the building maintenance man exactly as threatened by the extortionist (threatened to test positive for asbestos)

#31 09/15/2022 8:51 PM Bedroom bathroom STINKS of marijuana

#30 09/12/2022 7:44 PM Apartment stinks of marijuana, wife is coughing from the odor.

# MARIJUANA ODOR THREAT

On January 17, 2017 I was extorted for two and half hours by a Republican city councilman of Centennial Colorado.

Threats made by this man include:

1. Marijuana odor would be produced in the building that he would manipulate us to live in.
2. The odor would come from the maintenance man's apartment below ours
3. The property manager (a woman) would do nothing about the odor.
4. The odor would precede arson of the building.
5. He would cause a fire in any property we buy or rent, or were 'likely' to buy or rent.
6. The smoke detectors would not work when the arson occurred.
7. That his 'people' in the city would come to inspect the building if the odor was reported to authorities.
8. The fire and/or inspection would result in asbestos placed by his people to be found & the property declared uninhabitable.
9. When the building was evacuated his people would seize, fabricate, and/or tamper with evidence to point guilt at us.
10. He would place something on my door that would cause an odor to be reported
11. He would burn our carpet to create the appearance that we were smoking in the apartment
12. Force us to sue for 'constructive eviction' where the property manager would perjure herself in court saying that I was the only one to complain about the odor
13. That he would get us evicted by falsely accusing us of noise "that sounds like running" or "moving furniture"
14. He would "destroy" me if I ever told anyone.
