

COUGH THREAT

On January 17, 2017 the extortionist racketeer Republican city councilman of Centennial Colorado threatened to signal that he had me under surveillance by emitting short car horn beeps, **coughing**, people wearing red or carrying something red, people entering online servers I was active on and mentioning what I ate that day or what I said in private.

He threatened to then have me prosecuted for 'lewd acts' and 'indecent exposure' for sex and/or masturbation which might occurred in private based on the fact that these acts took place with the knowledge that his illegal surveillance was taking place. If I reported him he threatened to 'destroy' me, seize our bank accounts, and to spoof my phone number to send videos of me masturbating to children .

All of these incidents constitute overt acts in accordance with insurance fraud conspiracy, conspiracy to commit arson, conspiracy to infiltrate government computer systems, conspiracy to commit illegal wire tapping, election fraud conspiracy, mail fraud conspiracy, conspiracy to contribute to the delinquency of a minor, conspiracy to manufacture a controlled substance which killed 68 Americans and hospitalized over 2800 more in 2018/2019 via Vitamin E added to THC extract Vape products. All of these things were among over 130 threats made on January 17, 2017
